Workplace recycling and waste containers

THE COMBIN

Ideal for use around your workplace, these containers have material images displayed on the top to make it easy for everyone to see what should be put inside.

With a base made from corrugated cardboard, the Combin is an inexpensive way to introduce waste and recycling segregation to your workplace.

Eurobins for recycling and waste

THE EUROBIN

Eurobins, also known as wheeled or wheelie bins, are ideal for organisations that produce smaller quantities of waste. The UK's most popular trade waste container, eurobins are compact and easy to handle. The larger sizes, 1100L and 660L, have lockable wheels and can be fitted with lockable lids.

Large metal containers

THE FRONT END LOADER (FEL)

FELs are popular for sites that produce a high volume of waste. The top loading design makes these containers easy to use.

FELs have no wheels, but can be moved by our collection vehicles. They also have a lockable lid, so waste can be secured.

Secure shredding and destruction

THE SECURE CONSOLE

Best suited to regular collections, the secure console is popular in office environments. Lockable, the console keeps confidential data secure until destruction – which can take place on or off-site.

On-site shredding takes place at your premises using one of our specialist shredding vehicles, while off-site shredding and destruction takes place at one of our secure facilities.

The secure shredding team members handling your confidential waste are checked by the Disclosure and Barring Service.

THE SECURE SACK

Where regular collections are not required, secure sacks can be the ideal solution.

Secure sacks can be used for confidential paper documents and also for non-paper materials, such as packaging, uniforms and media waste. The sacks can be securely destroyed on or off-site.

Food waste

THE FOOD WASTE EUROBIN AND CADDY

An indoor caddy is a convenient container for collecting food waste in workplace kitchen areas. The caddies use biodegradable liners, so the contents can easily be transferred to a larger outdoor container ready for collection.

THE HAZBOX

Our hazbox service is ideal for workplaces that produce everyday items of hazardous waste – such as light bulbs, toner cartridges and batteries.

It is a 60 litre container, which is easy to store in your workplace and can be exchanged, when required, for an empty one.

For larger hazardous waste requirements, we also offer:

- + UN approved drums for acids or solvents, with full compliance support.
- + Tankers for large volumes of liquid wastes.
- + Waste safes for contaminated rags, paint tins, oil or grease.
- + Industrial cleaning services, which include decontamination, repackaging projects and high-pressure jetting.

To find out more or to discuss your requirements, call us on **0800 064 8887**.
